## ENHANCE AIRCRAFT SAFETY WITH TCAS II **CHANGE 7.1** SW

Upgrade your ACSS TCAS 2000 and TCAS II computer units to Change 7.1 software. The upgrade improves TCAS performance and addresses important safety enhancements of reversal logic and aural alerting for "Adjust Vertical Speed."

More than 10,000 TCAS 2000s are installed and operating in air transport, regional, corporate and military aircraft around the world.
